CRAFTED WITH PRIDE

IN THE USA

Real Fyre® Charred Majestic Gas Logs pictured in an Estate series fireplace by Lennox

In the chill of the season, family and friends gather around the comfort of the fireplace, making your home aglow with life.

There's nothing quite like savoring a steaming cup of coffee, or a robust glass of wine in front of a fireplace complete with the beautiful glow created by a Real Fyre® gas log set.

Available in more than 40 authentic styles, all Real Fyre® gas log sets are handcrafted, hand painted, and look stunningly realistic. From active natural flames down to a glowing bed of lifelike embers, the Real Fyre® Vented Collection is designed to complement your fireplace. Real Fyre® gas logs replicate the beauty of a wood fire with the convenience and cleanliness of gas.

If a more contemporary look is what you seek, Real Fyre® Glass, Gems and Diamond Nuggets can turn your hearth into the pinnacle of modern style.

With companion accessories such as safety controls, pine cones, acorns, wood chips, and many other items, you can further enhance the beauty and practicality of your hearth. Real Fyre® Gas Logs are certified/listed to national standards, and come with the best warranty in the industry.

Real Fyre® has been providing comfort, convenience and enjoyment for homes for over 65 years. Experience the Vented Collection from Real Fyre® and enjoy the splendor and warmth of a wood fire while dramatically reducing air pollutants. Burning Real Fyre® gas logs, instead of wood, preserves precious forest resources for generations to come. Experience Real Fyre® ...

G52 RADIANT FYRE BURNER SYSTEM

Sizes 18"-30"

Charred Evergreen Oak (ENO)

Sizes 18"-30"

Charred Evergreen Split Oak (ENS)

G52 RADIANT FYRE BURNER SYSTEM

With enticing dancing flames, you can feel the warmth of the Peterson Real Fyre® G52 Radiant Fyre gas log systems. Molded with an exclusive fiber enhanced refractory ceramic mixture, these handcrafted logs showcase the crisp Charred Evergreen Oak & Charred Evergreen Split Oak bark detail, and they glow and they radiate!

Model Shown: G52-18/20-2VT

Key Features

- Exclusive **stainless steel booster grid** acts as a catalyst to increase the intensity of the fire and the glow of the logs
- Dual-tiered burner system uses **fewer BTU's** while radiating a higher, robust fire with dancing flames
- Hidden controls under the burner for a **compact footprint** to fill your fireplace with flame
- Multiple control options include:
 - Electronic valve with Intermittent Pilot Ignition (IPI) and variable flame height control via remote (-2VT)*
 - Electronic valve with Intermittent Pilot Ignition (IPI) and on/off remote control (-02)*
 - Millivolt valve with standing pilot and variable flame height control via remote (-17)*
 - Manual valve with standing pilot (-A)
 - Match-lit (Natural Gas only)
- For use with Natural Gas or Propane
- Burner available in 18/20" and 24/30" sizes
- Compatible with our unique **fiber enhanced ceramic refractory mix** Charred Evergreen Oak (ENO) and Charred Evergreen Split Oak (ENS) gas logs; in sizes 18/20", 24", and 30"

*May be used in Manual Mode

Mountain Crest Split Oak (MCS)

G31 3-TIERED BURNER SYSTEM

The Real Fyre® G31 three(3)-tiered burner system creates high and full-bodied flame...while using fewer BTU's than other vented burner systems. This burner has 2 specially designed log sets...**PLUS** it is also compatible with 6 additional gas log sets from the Real Fyre® Vented Collection.

Key Features

- **3-Tiered burner** design for high, full-bodied flame
- Compact footprint to fill your fireplace
- Uses **fewer BTU's** than other vented burners
- Porcelainized **reflective front panel** to provide a deeper ember bed reflection
- Multiple control options include:
 - Electronic valve with Intermittent Pilot Ignition (IPI) and variable flame height control via remote (-2VT)*
 - Electronic valve with Intermittent Pilot Ignition (IPI) and on/off remote control (-02)*
 - Millivolt valve with standing pilot and variable flame height control via remote (-17)*
 - Manual valve with standing pilot (-A)
 - Match-lit (Natural Gas only)
- For use with Natural Gas or Propane
- Burner available in 18/20", 24/30", and 33/39" sizes
- Exclusively designed log sets include: Mountain Crest Oak (MCO) and Mountain Crest Split Oak (MCS); sizes 18", 24", 30", 33", and 39"
- Burner system also **compatible with 7 additional gas log sets** from the Charred Series Vented Collection; including the **Charred Majestic Oak** in sizes 24", 30", and 36" (not pictured).

CHARRED SERIES

Like an artist who can bring the beauty of nature to life, Real Fyre® artisans work from real wood samples to meticulously recreate the intricate bark detail and natural coloration of deeply charred wood. The burned-thru centers of the resulting log sets—from the Charred American Oak to the Charred Majestic Oak—reveal the brilliance and fiery heart of a robust, long-burning fire.

The Charred Series from Real Fyre® experience the pinnacle of realism...
...so real you can almost smell the wood.

Gold Reflective Fyre Glass (GL-HR) pictured

FYRE GLASS

Crushed Fyre Glass shines radiantly throughout your entire fireplace and creates a brilliant fire as flames reflect off the Fyre Glass' multi-faceted surfaces. It is fully tempered "toughened" glass - fire tested up to 1200°F by Peterson's accredited laboratory. Fyre Glass is formulated to stay as radiant as the first day it's installed and can tolerate extreme temperatures without melting or discoloring. Choose one or several of our many available colors to customize your fireplace, or outdoor fire feature.

FYRE GEMS

Fyre Gems are designed so that your fireplace will glow and sparkle in a sea of vibrant, glistening flame. Their rounded and smooth surfaces reflect the fire providing a unique hearth experience. Each Fyre Gem is approximately 5/8" in diameter and is manufactured to withstand the extreme heat and temperature variations in the fireplace without melting or discoloring. Choose one, or several of our many available colors to customize your fireplace or outdoor fire feature.

BURNER SYSTEMS

Glowing Ember Burner Systems (G4 & GX4)*

With dancing flames and a glowing ember bed, the G4 & GX4 are compatible with most Real Fyre® log styles and controls. The GX4 features a heavy-duty grate.

Triple T Burner Systems (G45 & GX45)*

These specialized RGA-72, and ANSI Standard certified (with controls pre-assembled at the factory) burner systems, accentuate the front flame and the ember bed. Compatible with most Real Fyre® log styles and controls. The GX45 burner kit features a heavy-duty grate. In Natural or Propane gas.

Advanced Glowing Ember Burner Systems (G46)*

This system features hidden installed controls, piezo ignition and lively flames and embers with less BTU's (fuel consumption). ANSI Standard certified for Natural or Propane gas. Compatible with most Real Fyre® log styles.

Pan Burner Systems (P & PB)*

With unique burner design for Real Fyre® gas logs (P-Series) or Contemporary Alternatives Options (PB-Series), these burner systems allow flames to erupt over the entire pan. Ideal also for see-thru, peninsula or island fireplaces. Available for Natural or Propane gas.

Glass and Gems Burner Kit (G45-GL)

The G45-GL burner creates an enchanting flame picture when used with Fyre Gems and Fyre Glass. Use sand or vermiculite as the base and save on the amount of glass or gems required. Elevated platform provides the maximum effect of the reflective nature of these products and spread the flame for ultimate beauty and warmth.

Stainless Steel Triple T Burner Systems (G45-GL-**-SS)

This specialized burner system accentuates the front flame and embers of the log set and is compatible with most Real Fyre® log styles and controls. ANSI Standard certified systems, with controls pre-assembled at the factory, are available. For Natural or Propane gas. Optional stainless steel grate is available. **= size of burner

Tapered Dual Pan Burner (P45)*

This burner system is designed for use with the Fyre Spheres, Glass Media and special gas log sets. Three sizes (18", 24" & 30") in tapered design to fill the fireplace.

Triple T See-Thru Burner System (G45-2)*

The G45-2 see-thru burner system is designed to fit see-thru, peninsula or island fireplaces. Available with multiple factory installed control options or as a match lit system for Natural or Propane gas.

Glass and Gems See-Thru Burner (G45-2-GL)

This Glass and Gems see-thru burner system is specially engineered to provide flames that offer maximum impact when used with Real Fyre® Fyre Gems or Fyre Glass. Available for Natural or LP gas.

3-Tiered Burner System (G31)*

The Real Fyre® G31 three(3)-tiered burner system creates high and full-bodied flame...while using fewer BTU's than other vented burner systems. This burner has 2 specially designed log sets...PLUS it is also compatible with 7 additional gas log sets from the Real Fyre® Vented Collection. (See pages 6 & 7)

Radiant Fyre Burner System (G52)*

This burner system features an exclusive stainless steel "booster grid" that acts as a catalyst to increase the intensity of the fire. It offers multiple control options including remote, manual and match lit. Compatible with Charred Evergreen Oak & Charred Evergreen Split Oak logs only. Available for Natural or LP gas. (See pages 4 & 5)

Epic Burner (EC)

The Epic Burner is designed for use with the Mammoth Pine and is ideal for commercial applications such as restaurants and hotel lobbies. Available in 24"-60" sizes, its clean-burn requires no granules or embers.

**These burners are shown with optional control system.*

NOTE: For BTU and size information on all burners, see page 31.

SAFETY VALVES & CONTROL OPTIONS

High Capacity, 110V Electronic Valve Kit (EPK-3V-TR)

High capacity (up to 260,000 BTU's), 110 Volt powered electronic, non-standing pilot system with variable flame height control. Includes: Variable transmitter, receiver, and high capacity transformer.

110 Volt Electronic Valve Kit (EPK-2V-TR)

110 Volt powered electronic, IPI system with variable flame height control. Enclosed to protect components if used outdoors. Includes: Variable transmitter, receiver, and transformer.

Electronic Pilot Kit w/Hot Surface Ignition (EPK-05)

AC powered electronic pilot system with hot surface ignition and smart valve. Includes RR-1A remote control.

110V Electronic Valve Kit (EPK-1M-AD)

110 Volt electronic, non-standing pilot system designed to be installed outside the firebox. Includes adapter plug & mounting bracket.

Electronic Pilot Kit (EPK-2)

This electronic pilot kit with transmitter & receiver features a flame sensing pilot activation and low profile valve, no standing pilot and manual or remote operation. Includes RR-1A remote control.

Electronic Pilot Kit (EPK-1)

Automatic remote pilot lighting system. Features flame sensing pilot activation and no standing pilot. Remote control or manual option. RR-1A remote control transmitter included.

Low Profile Automatic Pilot Kit (APK-17)

APK-17 low profile and small footprint valve system maximizes flame presentation and allows adjustment of flame height with remote control. Features include: triple heat shield & angled nipple coupling that elevates the valve for easier installation and operation. VR-1A remote control transmitter included.

Variable Automatic Pilot Kit (APK-15)

Allows adjustment of flame height and heat output with a remote control. Decorative wood chunk, heat shield included, and VR-1A remote control transmitter included.

Automatic Pilot Kit (APK-11)

Automatic remote lighting safety pilot system. Operated by on/off switch and/or remote control. Heat shield included, and RR-1A remote control transmitter included.

High Capacity Automatic Pilot Kit (APK-10)

High volume (up to 260,000 BTU's) on/off remote control with standing pilot. RR-1A included.

Low Profile Safety Pilot Kit (SPK-26)

Low profile, manual valve control with removable knob handle. Double heat shield included to keep the valve cooler.

Manual Valve (AV-17/AV-18)

Manual on/off valve with knob handle or extension handle. Fits all burner systems

All valves may be purchased for Natural or Propane Gas.

ON/OFF REMOTE CONTROL OPTIONS

RR-1A

Standard on/off remote control.

RR-2A

Deluxe on/off remote control. Temperature display and thermal control function.

VARIABLE FLAME REMOTE CONTROL OPTIONS

VR-1A

Standard variable flame height remote control.

VR-2A

Deluxe variable flame height remote control. Thermal control temperature display.

WS-1

Wall switch for log set, on/off control.

WS-2

Wall switch for log set, on/off control with timer.

WS-3

Wall switch for log set, on/off control. Fits: APK-15 & APK-17 w/wire harness WH-01
